

## *Good news from The Monte Hospital...*

We're always on the look-out for new ways to re-manufacture those hard-to-find spare parts that haven't been available for years. Next month we'll be bringing back three items that we're often asked for but haven't been able to supply for a long, long time. Returning to our stock product list will be **DOOR BUTTONS**, now being re-made exclusively for us by one of the best precision moulding companies in the business . Their managing director has owned a Montecarlo since the 1980s, so their commitment to our cars is second to none. We'll also be bringing back the all-important **DOOR BUTTON SURROUNDS** that go with them and to help you tidy your doors up in style we're re-launching the **DOOR HANDLE GASKET** that provides a weatherproof seal for the exterior door lock.

**MH1720**  
Door Button

**MH1722**  
Door Button Surround

**MH1620**  
Door Handle Gasket

...and don't forget we now carry a full range of dashboard support panels and interior trim panels for all left-hand drive and right-hand drive versions of the Montecarlo as well as for the Scorpion. Look in the **INTERIOR TRIM** section of our online shop for the complete and comprehensive range that we now offer.
